DENVER, Feb. 9 (INS) — Last  
August, I was selling insurance in  
Denver but three months later I  
was a brigadier general leading a  
Moslem army against Hindu India.  
I was a general for 99 days. In  
that time I bossed 2,400 good British-  
trained Indian soldiers and  
thousands of wild Pathan tribes-  
men from the Himalayan foothills  
whom the British had never been  
able to tame.

I led my troops through a siege,  
and in the capture of four fortified  
towns. In battles we waged, more  
than 3,000 men were killed and  
injured. I killed probably upwards  
of 20 men myself in close combat.  
Only a year before I had a tempo-  
rary appointment as a cop in  
Denver. After six months they  
wouldn't let me take the exam for  
a permanent job because I wasn't  
old or strong enough.

I was only 24 and weighed only  
135 pounds—a year under age and  
ten pounds under what my five  
feet eight called for. I guess they  
were afraid I couldn't cope with  
a pickpocket.

I thought of that once when I  
was wrestling a six-foot Punjab  
Brahmin in an Indian jungle,  
hacking away at him with my kukli  
(a short, broad-bladed sword).

Now I'm in Denver. I still wake  
up every three hours in the night  
and strain my eyes to see if some-  
body's creeping up on me in the  
dark.

When I left Denver last August  
I was just an ordinary guy, trying  
to support a wife and child. I went  
out to Afghanistan as a surveyor  
for an American construction com-  
pany. I was down for \$50 a month  
and room and board for myself,  
and \$300 every month in my wife's  
bank account.

I went because I figured that in  
a year we'd have a stake.

I'd have laughed at anyone who  
told me that within 90 days I'd be  
in India showing native tribesmen

Pedestrian Struck by Auto  
As He Walks Along Road

A pedestrian, William Davis, 63, of  
47 West Ingham avenue, Trenton,  
N. J., was injured Saturday evening  
when struck by a car while walking  
along Green Lane at about 7:50  
o'clock.

Davis and his son, Charles, of  
Morrisville, had been visiting in the  
Green Lane vicinity and were walk-  
ing when a car operated by George  
S. Hahn, 233 Williams street, Trenton,  
struck Davis.

Davis sustained an injury to the  
hip and leg. He was taken to the  
Harriman Hospital in the ambu-  
lance of the Bucks County Rescue  
Squad, where he is still confined to-  
day.

The car operated by Hahn, after  
striking Davis, skidded into the au-  
tomobile of John Healey, and dam-  
aged it.

# CREWMAN KILLED IN PLANE MISHAP

FLIGHT ATTENDANT Gilbert P. Folz (left) was killed when a propeller knifed through the side of the giant Constellation airliner which caught fire over the ocean with 69 aboard en route to Miami from Boston. Famed flier Dick Merrill (right) went to the aid of the ship's pilot when one motor exploded and a second began burning. The damaged aircraft was brought in for an emergency landing at Bunnell Field.

Activities of Interest To All in The Various Communities

### GLEANED BY SCRIBES

Five trustees were elected at the meeting of Richboro Fire Company in the fire house, on Monday evening. They are Chester Backus, Russell Cornell, Paul S. Davis, Carl Kunz and Stanley Simons.

The president, Robert W. Turner appointed the following committees to serve throughout the year: house, Stanley Simons, Ralph Caldwell, Fred Kimble, Russell Cornell and Samuel Permar; auditing, Joseph Kraeger, Carl Anderson and Stuart Burnley; membership, Chester Backus, Lester Thomas and Paul Bodine; publicity, Edward Herzog, Pellevue Beals and Cecil V. Wilson. Livery: fire fighting equipment fund, Harry Turner, Joseph Luff, Donald Null, Samuel Permar, Jr., John Freeman, Edwin Traub and Carl Anderson; refreshments, J. Edward Blossinger, Walter Ramsey and Lawrence Fesmire; carnival, Carl Kunz, and housing, Horace Luff, Harry Turner, Clifford Wyant and Carl Kunz.

Chief Harry Turner reported one minor fire during January. This was a chimney blaze in Davisville. Fred Warrick and John R. MacLachlan were added to the membership.

The proposed addition to the Doylestown Emergency Hospital will make it twice its size, and will cost approximately \$300,000, on a cubic foot estimate. Of this amount there is \$140,000 available at the present time.

At the meeting of the Village Improvement Association this week, at the home of Mrs. J. Carroll Molloy, Jr., Doylestown, plans for the new

## A SUMMARY OF THE NEWS

Dismantling of German plants and apportioning them as reparations helps rather than hurts the European Recovery Program, according to Secretary Marshall. In a letter to Senator Vandenberg made public yesterday the Secretary of State declared that any unilateral attempt to end the arrangement supported by the other nations would jeopardize the "unity of purpose and feeling" essential to European recovery. "Soviet breaches of the Potsdam agreement," he said, made certain adjustments necessary, such as halting deliveries from the United States zone to Russia and Poland, but do not justify scrapping the program.

Although the Communist party in Britain is generally opposing the Marshall Plan, the Communist secretary of the miners' union called for increased production and appealed for 70,000 recruits to dig coal.

The struggle in Poland between the Government and the Roman Catholic Church seemed to be nearing a showdown. Church leaders presented new demands to the officials, who, in turn, were preparing a bill to make civil marriage prior to religious rites compulsory.

The Jewish Agency for Palestine said that high explosives had been smuggled into a section of Jerusalem's Old City, and other sources estimated that 15,000 Arab troops

## Former Resident Here Dies in Los Angeles, Cal.

Mrs. Bertha Moore, nee Reeves, wife of James A. Moore, 111 McKinley avenue, Lansdowne, died Friday in California, while visiting her son and daughter-in-law, Mr. and Mrs. James A. Moore, at Los Angeles.

The deceased is a sister-in-law of Andrew Moore, of Monroe street, and is a former resident of Bristol. There will be a viewing this evening at 4731 Lancaster avenue, Philadelphia, and burial will be tomorrow afternoon at one o'clock in West Chester.

In addition to her husband the deceased is survived by four sons, Wallace, James, Richard and Charles; one daughter, Hazel, and two grandchildren.

## SEVEN YOUNG PEOPLE SERVE AS ATTENDANTS

Miss Cecelia Mauro Becomes Bride of Mr. Vincent D'Ambrosia

### DINNER IN TRENTON

A quartet of young women attended Miss Cecelia Mauro, 1017 Elm street, when she made her way to the altar of St. Ann's R. C. Church yesterday afternoon at two o'clock, there to become the wife of Mr. Vincent D'Ambrosia, son of Mr. Benjamin Ferraro, 903 Beaver street. Mr. Anthony Mauro gave his sister in marriage, the Rev. Peter Pinci performing the ceremony. The bride is the daughter of Mrs. Mark Mauro.

Making her way up the aisle the bride was attractively gowned in white satin, entrain, the gown having trim of white sequins. From a beaded Dutch cap fell a net veil, fingertip length. She carried calla lilies, with a lavender orchid appearing in the center of the bouquet.

Mrs. Rocco Sagolla, Mansion street, Miss Micheline Lonsenski, Jefferson avenue, and Miss Rae Mauro, the latter a sister of the bride, were bridesmaids; and Miss Carmella Pollace, Elm street, maid of honor. Their floor-length gowns

## Plan Private Service For Mrs. Charles Milnor

Private service is arranged for Mrs. Kate Milnor, 81, who died at her home, 147 Buckley street, Saturday afternoon. The service will be at the funeral home of John C. Black, 314 Cedar street, tomorrow afternoon at two o'clock, with the Rev. Charles Weller, pastor of Bristol Methodist Church, officiating. Burial will be in Bristol Cemetery, and friends are invited to call this evening.

Mrs. Milnor, widow of Charles Wesley Milnor, was born in Bristol and had always resided in this borough. A son, Alvin E. Milnor, Buckley street, survives.

## Rites for Mrs. Lombardo Will Be Held Tomorrow

Rites for Mrs. Vittoria Lombardo, widow of Peter Lombardo, who died at her Jefferson avenue home on Saturday, will be held tomorrow.

Relatives and friends are invited to the Galzerano funeral home, 430 Radcliffe street, at nine a. m., and Requiem High Mass will be sung in St. Ann's R. C. Church at 10 o'clock. Burial will be made in St. Mark's Cemetery.

## MRS. LE ROY BAKER

Word has been received of the death of Mrs. Violet M. Baker (nee Romig), Philadelphia, widow of Le Roy O. Baker. Mrs. Baker formerly resided in this section. Service will be held in Philadelphia this afternoon, with burial in North Cedar Hill Cemetery.

## Newportville Woman Dies; In Ill Health Six Years

NEWPORTVILLE, Feb. 9.—In ill health for six years due to a heart ailment, and bedfast for the past week, Mrs. Mabel Bellerby, wife of Charles I. Bellerby, Sr., died at her home, the Newportville Hotel, this morning.

Mrs. Bellerby's survivors, in addition to her husband, are as follows: daughters and sons—Mrs. Joseph Tillo, Bristol; Miss Rachel Mills, Rogers road; Miss Sarah Mills, John and Charles I. Bellerby, Jr., Newportville; and Joseph Mills, Laings Gardens; a sister, Mrs. Norris Muth, Newportville; and two grandchildren.

## PENNSALT VICE-PRESIDENT NAMED DIRECTOR

PHILADELPHIA, Feb. 9.—The board of directors of the Pennsylvania Salt Manufacturing Company has elected V. E. Hardcastle, Pennsalt vice-president in charge of manufacturing, as a board member. It was announced today by Leonard T. Beale, company president.

## PLAN FOOD SALE

A food sale is planned at Spencer's store, Mill and Radcliffe streets, at 10 a. m., on February 21st. St. James' P. E. Circle arranging this as a benefit for the American Red Cross.

# INFLATION NOT OVER

Probably the most alarming sign yet visible in Washington is the fact that the recent slump in stock and commodity prices was widely hailed as a readjustment marking the end of inflation.

This is disturbing because it shows how far the men in whose hands lies the fate of the nation come from understanding what inflation really is, how it works, and when it is being controlled. Their comments show they are completely at sea. That goes for all of them, even those who, like Bernard Baruch, ought to know much better.

They are all making the same false analysis of inflation—that all there is to this economic cancer is rising prices.

As has been said many times, prices are only a secondary effect of inflation. They are not its cause. "Controlling" them doesn't cure inflation. Nor does a drop in prices, whether artificial or natural, have any bearing whatsoever on the important question of whether the inflationary spiral has been broken.

There are innumerable studies of the cycles of inflation. Most of the records of John Law and his "Mississippi Bubble," which bankrupted France back in the early 1700's, are available to anyone who wants to review them. The famous currency inflation of France immediately after the French Revolution has been surveyed and condensed in what has become the classic case-history of this type of inflation.

For that matter, a great many people can remember most of the details of recent inflationary spirals—that of the German Mark after the first World War, for example.

Those who think that the inflationary processes rise in a neat, even swing, and then break at one abrupt point, need only to go back to these records to see that they do nothing of the sort.

The course of inflation, as has been said of true love, never runs smooth. It charts into a saw-tooth line, with quick upward spurts, followed by sharp reactions. When the break comes close, there almost always are several "soft" spots before the final disastrous plunge. And the plunge itself is not a single steep line, but a sort of staircase—going down.

The point is this: that a single sharp reaction in the course of inflation no more means that it is done and "controlled" than a January thaw means winter is over.

In this case, where Stock Market securities and such commodities as grain and cotton dropped suddenly in price, it merely meant that these prices were getting back in line, not with NORMAL, but with the process of INFLATION.

Inflation is still here. It is just a bit more dangerous than ever, because so many assume that it has "adjusted" itself. The patient hasn't been cured—what has happened is that some incompetent doctors are insisting that he is no longer sick.

# CROYDON MAN HAS A NARROW ESCAPE IN THE DELAWARE

John Haines, River Road, Hurdled Into Icy Water As Boat Capsizes

## TAKEN TO HOSPITAL

Lower Bucks County Marine Ass'n Members Go to His Assistance

CROYDON, Feb. 9.—Weighted down by his heavy clothing and hip boots as he was hurdled into the icy waters of the Delaware here early last evening when his boat capsized, John Haines, River road, had a narrow escape from drowning.

Mr. Haines was alone in a row-boat off Second avenue, looking for wild ducks, it is stated. He states that as he reached out of the boat the craft capsized. He was thrown into the water, but managed to cling to the overturned boat.

He was well out in the river, near the channel, at five o'clock, and as he clung to the craft in the icy stream, he called for help. Individuals on shore heard him, and summoned Lower Bucks County Marine Association members. They launched a boat and soon had Haines safely ashore.

He was taken to Harriman Hospital for treatment for exposure and returned home last evening.

## Offering Is To Be Used For Interdenominational Work

The offering taken at the annual World Day of Prayer meetings to be held around the world on Friday, the 13th of February, will be used to further four types of interdenominational work: Christian literature, foreign students, and American projects.

Through the Foreign Missions Conference of North America the World Day of Prayer offering will help in the following projects in distant lands: The Women's Christian College of Madras, India, which has been able, through these funds, to train men cooks, as well as women, to cook and make popular the many cereal grains available for food today, but which has heretofore been unknown, and unlike, by the people of India. The motto of this college is "Lighted, to lighten."

St. Christopher's Training College, in South India, with its pioneering in nurses' training; Vellore Christian Medical College, once exclusively a woman's college, founded by Dr. Ida Scudder, which is now admitting men; Isabella Thoburn College in Lucknow, said to be the oldest college for women in the East, and which now has 200 students from all parts of India and other lands, speaking 12 languages; the Woman's Christian College of Japan which has doubled its students, who have a keen interest in democracy and Anglo-American culture; Chefoo, Yenching and Gihing Universities in China, which have returned to their campuses after nine years, and which are learning to "do with" and to "do without."

Those in charge of plans for the service in First Baptist Church, here, on February 13th, point out that: "Foreign students in the United States (17,000) representing 105 national and racial groups, each one of them a potential leader in his own land, on 900 different college campuses, demand our attention and help. We must not allow them to return to their home lands embittered, with no will toward international cooperation. On the other hand they can be the most loyal, helpful friends, the kind needed to cement 'one world.'"

## Arrange Rites for Two Who Died of Exposure

ANDALUSIA, Feb. 9.—Services for two aged sisters who died as the result of exposure and senility on Friday and Saturday, will be held Wednesday afternoon. The rites will be for the Misses Laura and Emma Levengood, octogenarians.

Service will be conducted by the Rev. Albert W. Eastburn, rector of Christ Episcopal Church, Eddington, at two o'clock, Wednesday, at the funeral home of J. Maurice Tomlinson, Cornwells Heights. Burial will be made in Bristol Cemetery, and friends may call Tuesday evening.

When Russell Vandegrift, a neighbor, arrived at the Levengood home, Friday, he found the lifeless body of Laura on the kitchen floor. Nearby lay Emma, unconscious. The latter died Saturday morning in Nazareth Hospital, Philadelphia. The fire was out.

The two were members of Christ Church. They were life-long residents of this community. Surviving are three cousins: Mrs. Lilly Schegel, Pottstown; Elmer Newcomer, Greentown; and Joseph Newcomer, Knauertown.

## Japan's Prime Minister and Cabinet to Resign

Tokyo—Japan's Socialist Prime Minister Tetsu Katayama and his coalition cabinet decided today to resign as the result of a budget crisis. Katayama made an appointment to confer with Gen. Douglas MacArthur this evening to inform the occupation commander officially of his cabinet's decision. Informed Japanese quarters predicted that the outgoing administration will be succeeded by a cabinet composed of leaders of the Liberal party which, despite its name, is conservative in policy.

## Investigate Cause of Difficulty with Constellation

Miami—Civil Aeronautics Board inspectors today are attempting to determine what went wrong with an Eastern Air Lines Constellation Saturday when one man was killed and the lives of 69 persons aboard were imperiled by engine failure and an emergency landing near Punnell, Fla. Three CAB investigators are being aided by the plane's pilot, Capt. W. E. "Billy" Johnson, other crew members and Capt. Dick Merrill, EAL's chief pilot, who helped bring the big plane with its Miami-bound passengers down safely at the tiny Punnell field.

## Britain to Forge Ahead with Wage-Freezing Program

London—Britain's harassed Labor Government is today determined to forge ahead with its wage-freezing program despite the threat of nation-wide strikes. Over the week-end, delegates representing 500,000 workers flatly rejected Prime Minister Clement Attlee's wage-freezing plan. They demanded instead rigid price control of all consumer goods. Should the government go through with plans to peg salaries prior to enforcing price control, some observers feel that a series of nation-wide strikes may result.

## Cincinnati Believed Endangered by Ice Break

Cincinnati, O.—Tons of ice broke loose early today at two Ohio River dams and were reported headed for Cincinnati, endangering every installation and craft in the harbor. The engineers warned against early flood predictions and pointed out that the key to the situation was at Dam 37 below Cincinnati where they said the ice was holding.

FLYING STOVEPIPE

There is double-barreled significance in the Navy's announcement that the largest supersonic jet engine ever flown attained speed far into the supersonic range in its first flight. And that no jam.

This "flying stovepipe," as it is called, is simply a duct open at both ends. As its speed increases, it is rammed into the nose, through center valves, and is mixed with fuel in the rear section.

When spark plugs ignite this mixture, the explosion closes the valves and thrusts the engine head. The process is continuous, while a steady flame pours from the exhaust.

Although the ram jet was developed for use in guided missiles, it may bring about revolutionary changes in high altitude flight planning, because it delivers about 15 times the power available from the best aircraft reciprocating engines. Aircraft powered by ram jets might be brought to proper speed by other means before the ram is employed, just as a rocket was used to boost the Navy's pilotless "stovepipe" in the recent test.

Authorities say that ram jet planes might ultimately reach 5,000 miles an hour.

These are exciting developments in themselves, and they are a phase that is encouraging taxpayers who must foot the bill for the high class research, design and engineering required in such projects. The Navy and cooperating industrial organizations and universities saved considerable time and money by conducting preliminary tests on laboratory mockups, similar to the manner in which chemical and refining companies employ pilot plants before beginning expensive, large-scale operations.

In view of the swift rush of scientific development that lies immediately ahead, more extensive use of this pilot plant procedure might be the cheapest approach to defense against the push-button warfare of the future.

BROADWAY FARMERS

There are 50,000 farmers in New York City. This estimate is made by H. E. Burton, farm equipment consultant of the International Harvester Company, who says he already has a mailing list of 2,500 in the city.

Naturally, not many of the 50,000 actually till the soil in the city. Some of them live in the metropolises and live on farms within a commuting distance. Some own farms in places as far away as California and do their farming by remote control.

It is proof of man's natural urge to get back to the land that 50,000 tohannites—or, 2,500—may be classified as farmers. There must be substance to the figures because the Harvester Company, whose interest lies in selling farm equipment, finds it good business to maintain an "office for New York City farmers."

ECHOES OF THE PAST

(By Courier Staff Member)

Review of the news as it appeared in the Bucks County Gazette issue dated at Bristol Aug. 26, 1897. The Gazette, a weekly newspaper published in Bristol, was discontinued following its merger with the Courier.

Once in a while people who have formerly lived here come back to Bristol to renew old associations and to note the changes that time has wrought. Thomas Logan, who left Falls township in 1851 and who has not been Bristol since that time until now, has been the guest of Mr. and Mrs. Harry W. Phipps for several days this week. In this interval of nearly half a century Mr. Logan has had many adventures both by sea and land. In 1851 when Japan first opened her ports to foreigners he visited that country as a sailor. After his return he enlisted as a soldier in the regular army and served five years, and then was discharged. Coming to Philadelphia, he enlisted in a New Jersey Cavalry Regiment and served throughout the entire war of the rebellion.

He accompanied his husband, a boatman on a trip to Mauch Chunk for a load of coal. Just below Uchertown and on Thursday evening of last week between eight and nine o'clock, the boat grounded. Dugan called his wife from the cabin to the stern and gave the tiller into her charge. He then went to the bow and endeavored to shove the boat off the bar. Shortly afterwards nearby residents heard a woman's screams which Dugan did not hear because of his deafness. Those who heard the cries went to the canal, but in the darkness Mrs. Dugan, who had fallen overboard, was drowned before any assistance could be rendered. Her body was found on Friday morning. Besides her husband she leaves a child seven months old.

There is a good deal of travel by stage from Bristol to Crofton and return. During the week two stages ply between these points, and on Saturday afternoons and Sundays 15 stages and hacks (trips) are required to accommodate the public. It would be a convenience to the public if the stages would have regular hours for leaving.

The work of macadamizing Radcliffe street from Dorrance street to the borough line has been begun. About 20 men are at work. The dirt taken from Radcliffe street is utilized by being placed upon Washington and Lafayette streets.

Just below Uchertown and on Thursday evening of last week between eight and nine o'clock, the boat grounded. Dugan called his wife from the cabin to the stern and gave the tiller into her charge. (Following items from Gazette of Sept. 2, 1897.)

Mrs. Sarah Heston died Tuesday evening, at the home of her son-in-law, in Doylestown. She was one of the oldest residents of the county, being in her 98th year. Her father was the inventor of the mouldboard for plows and the first man to introduce anthracite coal into Bucks County.

Road supervisor of West Bristol township, Henry Baker, has a dozen men working for him in the construction of a six foot bicycle path all the way from the turnpike at the Bristol Cemetery to the Neshaminy Creek at Grundy's corner. The path runs alongside the cemetery from which the fence has been removed, out on the same side of the road to the Johnson place where it crosses over and continues until the Grundy property is reached, where the middle of the road will be kept in first class condition for wheelmen.

The contract for the construction of the trolley road from Langhorne to Newtown has been awarded to George W. Brubaker, of Philadelphia. It is expected that work will be begun at once in order to have the road completed before winter.

Inflation Not Over

Continued from Page One

As a matter of fact, it is in the reactionary stages of inflation, when the line appears to be going down instead of up, that the real test comes of whether the government is honestly trying to stop inflation, or merely using inflation for its own selfish purposes.

As long as the course is upward, there is an artificial air of prosperity. Prices are high—but money is plentiful with which to meet them. The moment prices react, money becomes tighter instead of easier—those who have cash tend to hold it expecting that prices will sink still further. This results in a sudden tightening up of business.

When that has happened in the past, as we can see most easily from previous inflationary cycles—the governments have refused to accept the new tightened conditions as being in any way normal. On the contrary, they have termed them reactions, panics; and have treated them as emergencies—to be met how? WITH MORE INFLATION!

There is every sign that the Truman Administration is taking the same slant on the current reaction. There is a sudden stressing of the way in which the Marshall Plan will "help employment" and support prices. The vast budget is being re-interpreted in the guise of "pump-priming."

What this means is that such a price set-back as has been noted recently, instead of being a curb on inflation, actually winds up becoming an excuse for increasing it.

The theory that "inflation is over" merely because prices had one sinking spell, is almost too absurd to need analysis, except for the fact that it is being accepted so widely by the heads of our government.

To begin with, the amount of the price-losses, measured in dollars and cents, seems large. But measured in actual percentages it is trifling. With most prices a hundred per cent or more out of line, how can a further change of a few points one way or the other be considered a "re-adjustment?"

Moreover, the basic factors of inflation are still with us, quite unchanged.

Take our currency. It is the same fiat money as ever, \$32 billions or so of promissory notes, backed with no more gold, on old values, than enough to pay it off at fifteen cents or so to the dollar. Despite the fact that President Truman and our Treasury persist in treating the currency as an asset, it actually is a liability against the public—just as definitely as the national debt.

The national debt has been retired fractionally—how? Simply by swapping one debt for another—by paying it off with paper-money surpluses in the Treasury. This is a purely inflationary process.

The government has inflated its credit in far more serious fashion than its currency. The national debt, added to other obligations saddled upon the American people, actually are two or three times more than the total resources of the whole country.

Equally inflationary are the facts that the Federal government is in the midst of a spending spree in which it is tossing away annually, in transient and non-profit enterprises, a sum equal to approximately a third of all the real earnings of the American people each year; and that national tax rates have risen to a confiscatory level under which our industrial economy is going to pieces.

Inflation isn't over. The Federal government has already spent, for war and peace, more money than all the American people can possibly pay back in several generations to come—and the open-handed waste continues. Virtually none of the government's expenditures are of a nature ever to earn a profit—most of the money is gone, never to return.

AND YET THE SPENDING GOES ON. INFLATION WILL CONTINUE JUST AS LONG AS THE SPENDING CONTINUES!

And if the process is allowed to keep on, when the inevitable "readjustment" and deflation come, it will not be as a minor flip in markets and prices—but as the biggest collapse in history!

THE GREAT GAME OF POLITICS

By FRANK R. KENT

The Bad Bosses Saved Us

Washington, Feb. 7  
THE pumped-up excitement concerning Mr. Henry Wallace and his third-party candidacy having measurably subsided and most of the hysteria now vanished from the comment, it is possible to see more clearly the facts about the man his support and the general effect upon the political situation.

ONE of these facts is that a great deal of nonsense has been written on the subject. For example it is not true that the Republicans, at least those with any grasp on political realities are greatly exalted by the Wallace candidacy. And it is not true that the regular Democrats are deeply depressed. On the contrary, well-experienced men in both parties are agreed not only that Mr. Wallace will carry no state but will not believe that he will not poll enough votes in any state to affect the result.

TO some extent this conviction is based on the record of the La Follette Progressive party in 1924. The elder La Follette, an eloquent and formidable senator, made a flaming campaign for the "common man." He was in every way a bigger and better balanced candidate than Wallace. He had a great deal more labor-union support than Wallace. The radicals and crackpots all rallied behind him and his campaign was well financed. Two weeks before election scared politicians believed he would carry thirteen states and throw the election into the House of Representatives. On election day he carried his own State of Wisconsin but did not poll in any other state enough votes to affect the result.

NOT only is there no state which Mr. Wallace possibly could carry, but no one believes he will get anything like the total of 5,000,000 votes cast for Senator La Follette. Take the State of New York where Mr. Wallace will be supported by the Communist party, a Communist-controlled American Labor party, the Communist-inclined labor leaders and the extreme radicals generally. Wild apprehension has been expressed that this insures Mr. Truman's defeat, which is ridiculous. Mr. Truman very easily may lose New York and easily be defeated. But, it will not be because of Mr. Wallace. Those who think so apparently forget that the Democrats lost New York in 1946, when every element, including the Communists now behind Mr. Wallace; the so-called "liberal party" which had split away from the American Labor Party; the American Labor party, the CIO, the AFL and every other labor faction were lined up against the Republican ticket.

THEY put everything they had into that fight and Governor Dewey murdered them, carrying the State by 700,000 majority. In 1944 it was clear that, with Roosevelt running and a war on, the Democrats could not carry the State without the votes controlled by the AFL and the Liberal party. In 1946 it was clear they could not even come close to carrying it with those votes. There is no reason to believe the situation has changed in two years—rather the reverse. In brief the practical politicians, despite the belly-ache credit Mr. Wallace with an insignificant personal following and believe his candidacy is of negligible importance so far as votes polled are concerned.

FROM the patriotic standpoint they deplore the manner in which he is playing into the hands of the Communists here and abroad, but Democrats and Republicans alike know he is making it easier for them to collect money for their 1948 campaign, and are convinced that when it is over the extraordinary weakness of the elements back of him, compared to the noise they make, will be usefully revealed. Incidentally it is interesting to note that the Wallace candidacy has created more bitterness among the advanced New Dealers—the "True Liberals" of the old Roosevelt regime—than in any other group. From these a flood of denunciation and invective has come. They have excelled themselves in the violence of their epithets. There is hardly a thing they have not called this man they so loved once.

FOR the most part, everybody else in politics is calm. The Democrats are not dismayed and the Republicans are not fools enough to think that now they can "win with anybody." So far as the great non-political public is concerned, those capable of thought and possessed of memory, listening to and reading the gibberish that comes from Mr. Wallace and realizing the sinister nature of his backers, must shudder when they recall by what a narrow margin this man missed being the present President of the United States.

CERTAINLY, it was not the late Mr. Roosevelt's fault that he is not President today. In 1944 Mr. Roosevelt was all set to renominate him for Vice President. He ditched him only under great pressure. It was those Democratic and not very savory city bosses—Frank Hague, Eddie Kelly and Eddie Flynn—who

forced him to give way, solemnly assuring him that Wallace would cost him millions of votes in the big cities if he insisted on naming him. Characteristically, though he had told Henry he wanted him again as his running mate, he did not insist. A lot of hard things have been said about these three tough old city bosses—and mostly they deserved what was said—nothing more. In view, however, of the unmitigated calamity from which they saved the American people in this instance, one is disposed to forgive them all the sins they have committed in the past and any they may commit in the future.

5 Boys from Here Enter Craftsmen's Competition

DETROIT, Feb. 9 — Five Bristol, Pa. boys are listed among youths from throughout the United States entered in the 1948 Fisher Body Craftsman's Guild competition for designing and building of model automobiles.

The Bristol entrants are: Walter Bowker, Jr., RFD 2, Sycamore avenue;

Martin Braam, 86 Schumacher Drive; David Gelman, 261 Mill street; Robert Robinson, 3 Schumacher Drive, and John Todd, 56 Alracobra road.

The Craftsman's Guild is offering a total of \$55,000 in awards, including eight university scholarships to the boys who design and build the best model cars this year. Entrants are between the ages of 12 and 26 and are divided into junior and senior divisions. The Bristol entrants will compete first for the 11 state awards offered in Pennsylvania. The top junior and senior winners then will vie with other boys from neighboring states for regional honors, and 40 regional winners will receive free trips to the national Guild convention to compete for one of the eight university scholarships.

Deadline for shipment of models is July 1.

They're Not So Dumb ---

By Marion Clyde McCarroll

Who said "dumb animals"? They're not so dumb!

Not those who're featured on this year's valentines, anyhow!

They know just what to say to a girl, and just how to say it. What's more, they know the proper mood to speak up, which, of course, is next Saturday, when St. Valentine gives them the nod and makes it official.

Not only can a young man find and dispatch with a tender message to the girl of his choice, her pet animal on a valentine greeting card, but, since this is Leap Year, a girl can pick out her Hero's favorite and send it along to him as a subtle

token of her regard. Or, if she's a girl who scoffs at subtlety, and prefers to come right out with things, she can choose, say, the frog card at the bottom of the page, which believes in plain speaking and makes no bones about the prerogatives of Leap Year. The not-so-dumb animals on the 1948 valentines are a versatile lot, and obligingly adapt their phrases to suit any wish and any mood, whether it's tender or whimsical, plaintive or gay, shy or daring.

Of course, if you're the hearts-and-flowers type, you'll find as many cards of this kind as ever in the 1948 collection, lacy hearts and all the trimmings. It's up to you!

Don't Let This Puppy's innocent air and guileless expression fool you! Open the card and you'll find him saying, "I'm really a Wolf at heart!"

Even The Birds Twitter love messages on this year's Valentine cards. What this pair promises to prove is "Two Hearts Can Beat As One!"

Road supervisor of West Bristol township, Henry Baker, has a dozen men working for him in the construction of a six foot bicycle path all the way from the turnpike at the Bristol Cemetery to the Neshaminy Creek at Grundy's corner. The path runs alongside the cemetery from which the fence has been removed, out on the same side of the road to the Johnson place where it crosses over and continues until the Grundy property is reached, where the middle of the road will be kept in first class condition for wheelmen.

The contract for the construction of the trolley road from Langhorne to Newtown has been awarded to George W. Brubaker, of Philadelphia. It is expected that work will be begun at once in order to have the road completed before winter.

## Inflation Not Over

(Continued from Page One)

As a matter of fact, it is in the reactionary stages of inflation, when the line appears to be going down instead of up, that the real test comes of whether the government is honestly trying to stop inflation, or merely using inflation for its own selfish purposes.

As long as the course is upward, there is an artificial air of prosperity. Prices are high—but money is plentiful with which to meet them. The moment prices react, money becomes tighter instead of easier—those who have cash tend to hold it expecting that prices will sink still further. This results in a sudden tightening up of business.

When that has happened in the past, as we can see most easily from previous inflationary cycles—the governments have refused to accept the new tightened conditions as being in any wise normal. On the contrary, they have termed them reactions, panics; and have treated them as emergencies—to be met how? WITH MORE INFLATION!

There is every sign that the Truman Administration is taking the same slant on the current reaction. There is a sudden stressing of the way in which the Marshall Plan will "help employment" and support prices. The vast budget is being re-interpreted in the guise of "pump-priming."

What this means is that such a price set-back as has been noted recently, instead of being a curb on inflation, actually winds up becoming an excuse for increasing it.

The theory that "inflation is over" merely because prices had one sinking spell, is almost too absurd to need analysis, except for the fact that it is being accepted so widely by the heads of our government.

To begin with, the amount of the price-losses, measured in dollars and cents, seems large. But measured in actual percentages it is trifling. With most prices a hundred per cent or more out of line, how can a further change of a few points one way or the other be considered a "re-adjustment"?

Moreover, the basic factors of inflation are still with us, quite unchanged.

Take our currency. It is the same fiat money as ever, \$32 billions or so of promissory notes, backed with no more gold, on old values, than enough to pay it off at fifteen cents or so to the dollar. Despite the fact that President Truman and our Treasury persist in treating the currency as an asset, it actually is a liability against the public—just as definitely as the national debt.

The national debt has been retired fractionally—how? Simply by swapping one debt for another—by paying it off with paper-money surpluses in the Treasury. This is a purely inflationary process.

The government has inflated its credit in far more serious fashion than its currency. The national debt, added to other obligations saddled upon the American people, actually are two or three times more than the total resources of the whole country.

Equally inflationary are the facts that the Federal government is in the midst of a spending spree in which it is tossing away annually, in transient and non-profit enterprises, a sum equal to approximately a third of all the real earnings of the American people each year; and that national tax rates have risen to a confiscatory level under which our industrial economy, is going to pieces.

Inflation isn't over. The Federal government has already spent, for war and peace, more money than all the American people can possibly pay back in several generations to come—and the open-handed waste continues. Virtually none of the government's expenditures are of a nature ever to earn a profit—most of the money is gone, never to return.

AND YET THE SPENDING GOES ON. INFLATION WILL CONTINUE JUST AS LONG AS THE SPENDING CONTINUES!

And if the process is allowed to keep on, when the inevitable "readjustment" and deflation come, it will not be as a minor lull in markets and prices—but as the biggest collapse in history!

## THE GREAT GAME OF POLITICS

By FRANK R. KENT

### The Bad Bosses Saved Us

Washington, Feb. 7

THE pumped-up excitement concerning Mr. Henry Wallace and his third party candidacy having measurably subsided and most of the hysteria now vanished from the comment, it is possible to see more clearly the facts about the man, his support and the general effect upon the political situation.

ONE of these facts is that a great deal of nonsense has been written on the subject. For example it distinctly is not true that the Republicans—at least those with any grasp on political realities—are greatly exalted by the Wallace candidacy. And it is not true that the regular Democrats are deeply depressed. On the contrary, most experienced men in both parties are agreed not only that Mr. Wallace will carry no state but incline to believe that he will not poll enough votes in any state to affect the result.

TO some extent this conviction is based on the record of the La Follette Progressive party in 1924. The elder La Follette, an eloquent and formidable senator, made a flaming campaign for the "common man." He was in every way a bigger and better balanced candidate than Wallace. He had a great deal more behind him and was completely well financed. Two weeks before election scared politicians believed he would carry thirteen states and throw the election into the House of Representatives. On election day he carried his own State of Wisconsin but did not poll in any other state enough votes to affect the result.

NOT only is there no state which Mr. Wallace possibly could carry but no one believes he will get anything like the total of 5,000,000 votes cast for Senator La Follette. Take the State of New York, where Mr. Wallace will be supported by the Communist party, a Communist-controlled American Labor party, the Communist-inclined labor leaders and the extreme radicals generally. Wild apprehension has been expressed that this insures Mr. Truman's defeat, which is ridiculous. Mr. Truman very easily may lose New York and easily be defeated. But it will not be because of Mr. Wallace. Those who think so apparently forget that the Democrats lost New York in 1946, when every element, including the Communists now behind Mr. Wallace, the so-called "liberal party," which had split away from the American Labor party, the American Labor party, the CIO, the AFL and every other labor faction were lined up against the Republican ticket.

THEY put everything they had into that fight and Governor Dewey murdered them carrying the State by 200,000 majority. In 1944 it was clear that, with Roosevelt running and a war on, the Democrats could not carry the State without the votes controlled by the ALP and the Liberal party. In 1946 it was clear they could not even come close to carrying it with those votes. There is no reason to believe the situation has changed in two years—rather the reverse. In brief, the practical politicians, despite the ballroom credit Mr. Wallace with an insignificant personal following and believe his candidacy is of negligible importance so far as votes polled are concerned.

FROM the patriotic standpoint they deplore the manner in which he is playing into the hands of the Communists here and abroad, but Democrats and Republicans alike know he is making it easier for them to collect money for their 1948 campaign, and are convinced that when it is over the extraordinary weakness of the elements back of him, compared to the noise they make, will be usefully revealed. Incidentally, it is interesting to note that the Wallace candidacy has created more bitterness among the advanced New Dealers—the "True Liberals" of the old Roosevelt regime than in any other group. From these a flood of denunciation and invective has come. They have excelled themselves in the violence of their epithets. There is hardly a thing they have not called this man they so loved once.

FOR the most part, everybody else in politics is calm. The Democrats are not dismayed and the Republicans are not fools enough to think that how they can "win with anybody." So far as the great non-political public is concerned those capable of thought and possessed of memory, listening to and reading the gibberish that comes from Mr. Wallace and realizing the sinister nature of his backers, must shudder when they recall by what a narrow margin this man missed being the present President of the United States.

CERTAINLY, it was not the late Mr. Roosevelt's fault that he is not President today. In 1944 Mr. Roosevelt was all set to renominate him for Vice President. He ditched him only under great pressure. It was those Democratic and not very savory city bosses—Frank Hague, Eddie Kelly and Eddie Flynn—who

forced him to give way, solemnly assuring him that Wallace would cost him millions of votes in the big cities if he insisted on naming him. Characteristically, though he had told Henry he wanted him again as his running mate, he did not insist. A lot of hard things have been said about these three tough old city bosses—and mostly they deserved what was said—yet more. In view, however, of the unmitigated calamity from which they saved the American people in this instance, one is disposed to forgive them all the sins they have committed in the past and any they may commit in the future.

### 5 Boys from Here Enter Craftsmen's Competition

DETROIT, Feb. 9 — Five Bristol, Pa., boys are listed among youths from throughout the United States entered in the 1948 Fisher Body Craftsman's Guild competition for designing and building of model automobiles.

The Bristol entrants are: Walter Bowker, Jr., RFD 2, Sycamore ave-

nue; Martin Braam, 50 Schumacher Drive; David Gelman, 301 Mill street; Robert Robinson, 3 Schumacher Drive, and John Todd, 56 Airacobra road.

The Craftsman's Guild is offering a total of \$65,000 in awards, including eight university scholarships to the boys who design and build the best model cars this year. Entrants are between the ages of 12 and 26, and are divided into junior and senior divisions. The Bristol entrants will compete first for the 11 state awards offered in Pennsylvania. The top junior and senior winners then will vie with other boys from neighboring states for regional honors, and 49 regional winners will receive free trips to the national Guild convention to compete for one of the eight university scholarships.

Deadline for shipment of models is July 1.

## They're Not So Dumb ---

By Marion Clyde McCarroll

Who said "dumb animals?" They're not so dumb!

Not those who're featured on this year's valentines, anyhow!

They know just what to say to a girl, and just how to say it. What's more, they know the proper moment to speak up, which, of course, is next Saturday, when St. Valentine gives them the nod and makes it official.

Not only can a young man find, and dispatch with a tender message to the girl of his choice, her pet animal on a valentine greeting card, but, since this is Leap Year, a girl can pick out her Hero's favorite and send it along to him as a subtle token of her regard. Or, if she's a girl who scoffs at subtlety, and prefers to come right out with things, she can choose, say, the frog card at the bottom of the page, which believes in plain speaking and makes no bones about the prerogatives of Leap Year. The not-so-dumb animals on the 1948 valentines are a versatile lot, and obligingly adapt their phrases to suit any wish and any mood, whether it's tender or whimsical, plaintive or gay, shy or daring.

Of course, if you're the hearts-and-flowers type, you'll find as many cards of this kind as ever in the 1948 collection, lacy hearts and all the trimmings.

It's up to you!

Don't let this puppy's innocent air and guileless expression fool you! Open the card and you'll find him saying: "I'm really a Wolf at heart!"

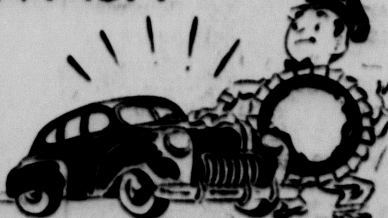

Even The Birds Twitter love messages on this year's Valentine cards. What this pair promises to prove is "Two Hearts Can Beat As One!"

## Temperature Here Drops To 6 Degrees Above Zero

Jack Frost let go today with another cold puff from his chilling lips and Pennsylvania found itself in the middle of another frigid spell.

In Bristol the temperature got down as low as six degrees above zero at seven o'clock this morning.

In Philadelphia, the thermometer skidded to 19 above zero after nearly an inch of snow fell Saturday.

But the weatherman promised the current cold wave would be brief. Rising temperatures were forecast beginning tomorrow afternoon.

Mr. Weatherman had another happy note to pass on to eastern Pennsylvanians—he can see no further snow or rain for the next two days at least.

(He said that last week, too, and he next day came a 10 inch snow fall in Philadelphia for the worst form of the season.)

Over most of Pennsylvania today, the prediction was fair and colder tonight, clear and very cold again tonight.

Driving conditions were hazardous throughout the state, though all main routes are open.

(It was cold in Pennsylvania today, but International Falls, Minn., reported 34 degrees below zero; Bismarck, N. D., 29 below; Minneapolis and St. Paul, 29 below; Sioux City, Iowa, 11 below.)

"A non-commissioned officer in the U. S. Army makes good money. The take home pay of a sergeant is equal to that of the average civilian making \$1000 a year," stated S/Sgt. Albert E. Young, sub-station commander, Bristol post office. "If you held one of certain military occupational specialties during the war, you may be able to enlist in the army today in a grade as high as technical sergeant. Your former grade and the length of time you held your specialty will determine which grade you will receive. You'll get good, steady work. Excellent opportunities for advancement. You may also choose service in Europe, with 20% extra pay." For all the facts, apply to the U. S. Army and U. S. Air Force Recruiting Office, Bristol post office.

## Investigate Possibility Of Yardley Playground

YARDLEY, Feb. 9—Carlton R. Leedom gave the Yardley Parent-Teacher Association, in session a few nights ago, a report of the school board's investigation of suitable ground to serve as a playground.

Mr. Leedom announced to the group that three tracts have been investigated. One tract, offered by Charles Rickert, is considered too small. The quarry tracts, he said, would cost \$2,500, and Mrs. Sidney Cadwallader has asked \$1,000 an acre for a tract she owns. Members of the association were told the school directors feel the prices are too high.

The cost of getting any athletic field in shape has been estimated at \$2,500 to \$3,000.

It was also pointed out that a street runs through the center of the ground offered by the water company as a playground. The plot of ground, the association was told, can be graded and can be used for a ball field.

Announcement was made by Mr. Leedom that a project for the year has been completed by the school board. Electric lights have been installed for the first four grades, and germicidal lamps have been purchased for use in the first grade.

## Supervises Installation Of 'Whirlpool' Apparatus

EDGELY, Feb. 9—Under the direct supervision of Dr. George P. Bennett, physical therapist, what is said to be the first and only portable whirlpool bath apparatus in the city of Philadelphia, has been installed in Chestnut Hill Hospital.

The apparatus was given the hospital as a benefit of the Main Street Fair, through the Auxiliary. Dr. Bennett has been associated with the Chestnut Hill Hospital for over 14 years. And his quarters have grown in the past years from one room and one conventional diathermy to four treatment rooms, an office, and waiting room. There have been added two short wave machines, four infra red and six

ultra violet lamps. He started giving about three treatments a week and is now administering over 200 and with this new piece of equipment will treat even more patients.

## IMPROVEMENT IS PROGRESS

Yes, whether it be in food or farming, automobiles or airplanes, hairpins or housecoats, improvement is progress.

And that same sort of improvement can be applied with equal promise of progress to the appearance of a lawn, a street, a town or a city.

You have no trouble, we're sure, in recalling any number of places you've visited, or towns you've passed through, that have made a definite and lasting impression on your memory because of their bright, pleasant, clean, orderly appearances.

And do you know why those places were neat and tidy?

Not because of the efforts of highly-trained technicians, working in modernly-equipped laboratories with unlimited funds at their disposal . . .

Not because they were just natural phenomena . . .

Not because they "just happened".

They had that spic and span appearance because of the diligent efforts of the folks who lived there. They've a special pride in their towns. Each contributes his honest-to-goodness share. Each is proud of his own little plot and home, and each is proud of the town as a whole.

It means, simply, a little paint here, a well-trimmed lawn there, the absence of debris and trash, neat fences, absence of rubbish piles in conspicuous spots, well-kept lots, neat, clean gutters and sidewalks, etc., etc.

And it isn't really difficult if each resident has that special pride in his home town.

Improvement to your home is progress for your town.

### Investigate Possibility Of Yardley Playground

YARDLEY, Feb. 9.—Carlton R. Leedom gave the Yardley Parent-Teacher Association, in session a few nights ago, a report of the school board's investigation of suitable ground to serve as a playground.

Mr. Leedom announced to the group that three tracts have been investigated. One tract, offered by Charles Rickert, is considered too small. The quarry tracts, he said, would cost \$2,500, and Mrs. Sidney Cadwallader has asked \$1,000 an acre for a tract she owns. Members of the association were told the school directors feel the prices are too high.

The cost of getting any athletic field in shape has been estimated at \$2,500 to \$3,000.

It was also pointed out that a street runs through the center of the ground offered by the water company as a playground. The plot of ground, the association was told, can be graded and can be used for a ball field.

Announcement was made by Mr. Leedom that a project for the year has been completed by the school board. Electric lights have been installed for the first four grades, and germicidal lamps have been purchased for use in the first grade.

### Supervises Installation Of 'Whirlpool' Apparatus

EDGELY, Feb. 9.—Under the direct supervision of Dr. George P. Bennett, physical therapist, what is said to be the first and only portable whirlpool bath apparatus in the city of Philadelphia, has been installed in Chestnut Hill Hospital.

The apparatus was given the hospital as a benefit of the Main Street Fair, through the Auxiliary. Dr. Bennett has been associated with the Chestnut Hill Hospital for over 14 years. And his quarters have grown in the past years from one room and one conventional diathermy to four treatment rooms, an office, and waiting room. There have been added two short wave machines, four infra red and six

ultra violet lamps. He started giving about three treatments a week and is now administering over 200 and with this new piece of equipment will treat even more patients.

## IMPROVEMENT IS PROGRESS

Yes, whether it be in food or farming, automobiles or airplanes, hairpins or housecoats, improvement is progress.

And that same sort of improvement can be applied with equal promise of progress to the appearance of a lawn, a street, a town or a city.

You have no trouble, we're sure, in recalling any number of places you've visited, or towns you've passed through, that have made a definite and lasting impression on your memory because of their bright, pleasant, clean, orderly appearances.

And do you know why those places were neat and tidy?

Not because of the efforts of highly-trained technicians, working in modernly-equipped laboratories with unlimited funds at their disposal . . .

Not because they were just natural phenomena . . .

Not because they "just happened".

They had that spic and span appearance because of the diligent efforts of the folks who lived there. They've a special pride in their towns. Each contributes his honest-to-goodness share. Each is proud of his own little plot and home, and each is proud of the town as a whole.

It means, simply, a little paint here, a well-trimmed lawn there, the absence of debris and trash, neat fences, absence of rubbish piles in conspicuous spots, well-kept lots, neat, clean gutters and sidewalks, etc., etc.

And it isn't really difficult if each resident has that special pride in his home town.

Improvement to your home is progress for your town.

how to shoot down strafing spitfires with only crudely made native rifles.

But as the commander of the Azad Kashmir International Brigade I did just that—and a lot more.

You don't hear much about it over here, but there's a sizeable war going on in Kashmir, up in northern India, on the Pakistan border.

Azad means "free" in Urdu. The Kashmir Moslems are in revolt against the Indian government and are trying to set up their own independent state.

Now I learn that Premier Nehru has just outlawed all such "private" armies as the one I fought with. I guess I got out just in time.

I never cared about the issues involved. I led free Kashmir forces into many a scrap, but for me it was a job—and excitement.

I got tangled up with that revolutionary army when I fell off a 500 foot cliff in Afghanistan. I fell only 30 feet to a ledge below, but that put me in a hospital, got me into an argument with my boss, and started me on the way home.

So one day I was sitting at a bar in Rawalpindi, Pakistan, waiting for a train to take me where I could catch a plane home. I was feeling unhappy about going home without the stake I'd come for.

An English newsman behind the adjoining bottle of beer suggested I join the Free Kashmir army as a soldier of fortune.

I'd been a soldier, in the U. S. and Canadian armies, for seven years. But this time there was the fortune part to make it attractive.

Two Moslems came round to my hotel room that night. Their jackets were bulging at the armpits with their concealed weapons. They led me to a heavily curtained automobile.

We drove for half an hour, and when we stopped, we were in front of a ten foot concrete wall, with broken glass set in its top.

A guard peered at us through a slot before, opening the massive wooden gate. We stepped into a big courtyard, before a square, two-story building. I got to know that building well later on—it was the headquarters of the Free Moslem forces.

My two escorts ushered me up a narrow marble staircase, one trotting before me, the other marching significantly behind.

Inside, dim electric bulbs splashed yellow light on forty or fifty Moslems, men and women who slept in shapeless huddles on the floor.

We threaded our way among them and went on through a corridor and up a staircase. We stopped before a door, my companions knocked, and we were invited in.

A slim, clean-shaven young man sat crosslegged on a woven rug. He wore pajamas, and so I was introduced to Sardar Mohammed Ibrahim Khan, president of the "Azad Kashmir Provisional Government."

He gestured my two companions away and motioned me to a seat on the bed beside him.

Obrahim speaks excellent English. Bluntly, he asked, "Why do you want to join Azad?"

I said frankly that I had come out of curiosity more than anything else.

He seemed satisfied, and asked me about my experience. I said I had seen action with the Canadians at Dieppe and with the U. S. Army in the Normandy invasion.

Then Ibrahim launched into a long explanation of the Moslem revolt against India in Kashmir. He justified his cause with the same arguments he is using today before the United Nations at Lake Success.

I didn't get particularly excited, though he did. I was more interested when he asked me what I wanted for serving Azad.

Behind me someone suggested \$1,000 a month.

"You can have anything you want," Ibrahim said.

I thought it over rapidly, and told him: "I'll wait. If this revolt is successful I want a good job with your government."

Ibrahim repeated: "Anything you want is yours." And we left it at that.

He called in Mohammed Ali Shah, the Minister of Defense to write out my commission. Ali Shah is a little deaf, and he held a trumpet to his ear as I shouted the spelling of my name.

The commission he wrote out made me a captain in the Azad army.

(Tomorrow Haight tells how he led commando-style raids against the Hindu outposts at Poonch.)

Various committee reports were received by members of American Legion Auxiliary on Friday evening as they gathered in Bracken Post home. The presiding officer was Miss Jane Hems.

Mrs. Harold Dettmer informed that candy and cigarettes had been sent to some hospitalized men. The sick committee reported sending cards to 11 members. Three new members were greeted.

The Americanism chairman, Mrs. Walter Strouse, informed that she will contact schools in regard to pupil participation in an essay contest being sponsored by the American Legion and Auxiliary. Prizes will be awarded at the time the American Legion medals are given next spring.

Mr. and Mrs. Harvey G. Cope, of Perkasie, celebrated their golden wedding anniversary on Feb. 1st by holding open house. About 150 relatives and friends called to offer congratulations and best wishes.

Coffee, cake and ice cream were served. Many gifts, fruit, flowers and money were received.

Three grandchildren, Kathryn, Dorothy and Betty Steiny, Blooming Glen, sang several selections after which Lady Hunsicker led the group in hymn singing.

The Rev. S. E. Meyer, Perkasie, performed the ceremony in which the couple renewed the vows made 50 years ago.

Refreshments were served by Mrs. Strouse and Mrs. Allen Lebo. Sr. in a Valentine setting. Refreshment committee named for next month includes Mrs. Lawrence McCoy and Mrs. John Barron.

Bi-County Council session will be held February 19th at Doylestown, and all members desiring to attend are asked to contact Mrs. Walter Rice, Croydon, secretary.

Members whose dues are not yet paid were requested to care for same as soon as possible in order that the quota may be reached.

Mr. Albert Barbetta, Bristol, served Mr. Palumbo as best man; and the usher was Mr. John Marsaglia, Monroe street, brother of the bride.

The bridal party was served dinner at a Trenton, N. J., restaurant; and the evening reception took place in Mutual Aid hall. The newlyweds will reside with Mr. Palumbo's parents. The bridegroom served with the U. S. Army overseas during World War II.

The officiating priest was the Rev. Peter Pinci, the ceremony taking place in St. Ann's R. C. Church.

The bride gown, of white satin, was entrain; and the net veil was attached to an orange blossom head-piece. The bride carried a shower bouquet of white roses.

Her attendants, three in number, wore gowns of American Beauty tone, with matching hats, and carried bouquets of mixed blossoms. Mrs. Joseph Castor, Penn street, and Miss Marie Miccozzi, Farragut avenue, were bridesmaids; and Mrs. Frank Saccomandi, Philadelphia, sister-in-law of the bride, was matron of honor.

— ACT 169 —

The General Assembly of the Commonwealth of Pennsylvania by Act of May 31, 1947 amending the Act of May 25, 1945, provided for the collection of personal taxes from the Employer and the Employer to deduct any such delinquent taxes of husband and/or wife from wages due its employees, plus extra costs and penalties, as provided by this and prior acts.

Your employer does not wish to be served with such tax notices. So save yourself and your Tax Collector the embarrassment of having to notify your Employer.

The law requires the Tax Collector to return to the County Commissioners all delinquent Real Estate Taxes by the first Monday of May of each year following the tax levy.

It is embarrassing to you and your Tax Collector to have to place a lien against your real estate for unpaid taxes. Therefore, be sure all your taxes are paid.

BRISTOL HIGH FIVE  
LOSES TO GEORGE  
SCHOOL, 38 TO 24

GEORGE SCHOOL, Feb. 9—Bristol High could not penetrate the zone defense of the George School five Saturday afternoon and bowed to the Brown and White quintet, 38-24. It marked the first time in two seasons that the Warriors were beaten two games in succession.

It was principally the defense set-up of the George School team that upset the Bristol boys. "Jim" Sottile was held to 12 points while "Johnny" Pindar had but one field goal. Sottile had five fielders and that represented the Warriors' entire scoring from the field although they racked up 12 out of 22 fouls.

"Bill" Weener scored 13 points in the George School win. The winners played inspired ball throughout the entire fracas.

BRISTOL RAMBLERS  
OUTPLAY BALTIMORE

Completely outplaying the Baltimore hockey players, the fast-climbing Bristol Ramblers scored a 3-0 triumph at the Burlington skating rink before 300 Saturday night and now have undisputed possession of second place in the Eastern States Roller Hockey League.

It was the Ramblers' 12th triumph against three defeats, also it is their fourth straight win in the second half.

A furious three-goal attack in the second and third period, after a scoreless first session, gave the Ramblers their thrilling triumph in one of the roughest games of the season.

Nine penalties including three in

succession for misconduct to Carter of Baltimore, were handed out to both clubs. Even the spectators got rough, tossing paper, programs and paper cups at the officials and opposing players.

But through it all the Ramblers outshone the visitors with their magnificent team play, sturdy defense and spirited drive. They bombarded Hammond, Baltimore goal tender, who batted out 41 shots. On the other hand, Dick Johnson was forced to make only 28 saves and chucked up another shut-out.

Lawrence Ritter was star of the evening for the Ramblers, whistling the puck into the net three times. In the second period he started the Ramblers off to their triumph after 8:04 of the period when he smashed a five-footer into the net from the side. In the 12th minute of the last period he swept in from the side to pick up a rebound of Bill Bell's drive off Hammond's pads and deftly lift it into the corner of the net. The fans were still cheering this goal, when he counted his third goal in a furious scrimmage around the net. He back-handed it in from six feet.

Fortified with a 3-0 lead, the Ramblers played defensive hockey the rest of the game.

GEORGE SCHOOL, Feb. 9—There seems to be no stopping of the Bristol High Junior Varsity team which tabbed its 11th straight win against the George School Junior Varsity, Saturday. Final count was: Bristol J. V., 41; George School J. V., 30.

Coach Harold McClister's proteges had the lead from the start and at the half-way mark were in front by a 24-11 count.

Joe Pindar had 17 points in the Junior Warriors' victory although his team-mates did plenty of passing to work the ball to him.

FRANKLIN A. C. FACES  
PENN. A. C. TONIGHT

The 9-game winning streak of the Franklin A. C. quintet in the Bristol Junior League will be threatened tonight as it meets the Penn. A. C. five on the Mutual Aid floor in the second game of the evening. In the first game, Third Ward will play the Terchon Post Cadets.

The Pennacs have improved since the opening tilt of the season and have worked themselves up to third place in the league standing. They have a fine chance of beating the boys of Junior Fields tonight.

In the Bristol Junior League game, Fifth Ward Speedsters meet the league-leading Fifth Ward Speedsters.
